

# HELP YOUR CUSTOMERS PROTECT THEIR BUSINESS

It's as easy as 1-2-3 with EPA Registered SANI-TABLET®

**NEW AND IMPROVED FORMULA**

**STEP 1:**  
Fill pedicure tub about 1/2 full with warm water. Drop one Sani-Tablet into the water and start whirlpool to dissolve.

**STEP 2:**  
Fill the tub to the desired capacity.

**STEP 3:**  
Let your client soak their feet in the tub and proceed with the normal pedicure procedure.

- Eliminates 99.99% of bacteria, viruses and athlete's foot fungus
- The ONLY EPA Registered product safe for soaking feet
- Easy-to-use single dose tablet dissolves quickly
- Will not corrode equipment like chlorine bleach
- Adds an extra layer of protection to keep clients coming back

For the complete pedicure service, use **Sani-Soft Effervescent Pedicure Tablet** along with Sani-Tablet to soften skin and fragrance water. Available in Peppermint or Pomegranate scents.
